Jl. Kasasi III No. 15. Tangerang.

Computer Science undergraduate student at BINUS University with a strong interest in Data Analytics and Business Intelligence. Experienced in SQL, Microsoft Excel, and Power BI through hands-on projects involving sales analysis and interactive dashboard development. Passionate about transforming raw data into actionable business insights and eager to contribute as a Data Analyst Intern.

Pengalaman

Customer Personality Analysis

Data Analyst Project

- Analyzed 2,233 customer data points to identify characteristics and purchasing behavior.
- Performed data cleaning and managing databases using MySQL.
- Built an interactive Power BI dashboard to visualize business insights, including Average Income by Education, Total Purchases by Product, and Purchases by Channel.

Sales Performance Analysis

Data Analyst Project

- Answered eight business questions using SQL to evaluate sales performance.
- Applied SELECT, GROUP BY, ORDER BY, CASE WHEN, SUM, and AVG for data manipulation.
- Generated business recommendations based on actionable data insights.

Retail Sales Dashboard

Data Analyst Project

- Developed an interactive Power BI dashboard for retail sales analysis.
- Created KPIs for Total Sales, Profit, Quantity, and Average Discount.
- Built interactive dashboards using charts and slicers.
- Generated business insights to support decision-making.
